

ESIS Technical Meeting on Numerical Methods (TC8) April 5 [6] 2021

The next meeting of the ESIS Technical Committee on Numerical Methods (TC8) will be online:

Monday, April 5 [6] 2021

Due to the pandemic, the meeting which was originally planned in Belgrad had to be canceled. In 2021, it will be organized online (Zoom, Google meet or Teams). We hope to be able to go to Belgrad next year! The meeting is planned on April 5 2021 but could be extended to April 6 depending on the number of participants. It is planned to have regular but online presentations. There will be no parallel sessions.

Topic and Program

The meeting topics will cover all aspects of numerical methods for failure prediction of both material volume elements and structures.

At the end of the meeting a round table will be organized to determine future topics for special issues in ESIS affiliated journals.

Deadlines

To facilitate the organisation of the meeting, please notify your interest as soon as possible, by email to

aleksandarsedmak@gmail.com and jacques.besson@mines-paristech.fr

Attendance is limited to up to 30 delegates, so early registration is encouraged.

Abstract Submission Deadline: March 15, 2021

Abstract Acceptance: March 20, 2021
